

DOMAINE
CHANTAL LESCURE

LA RENTE GIRON

Bourgogne

Vine and soil

This vineyard is situated west of Dijon on a slope of white marl, at an altitude of 380 metres. It was planted in 2017 and faces due east.

As part of the revitalisation of the Dijon vineyards, the Dijon Metropolitan Area has entrusted us with the management of this plot.

Wine-making

The grapes are harvested by hand and picked at peak ripeness (late-harvest variety). We carry out a long press using whole grapes without the addition of sulphur.

After a gentle settling, the wine is vinified entirely in barrels (no new oak), without any stirring.

Maturing and bottling

The wine is aged on the lees for a long period (14 months). Bottling takes place without fining or filtration.
